

Company Profile

ISO Certified Equipment Rental &
Machinery Solutions Provider

Reliable Equipment. Flexible Solutions.

Who We Are

MWG Equipment Rental L.L.C is an ISO-certified provider of equipment rental solutions and quality used machinery sales across the UAE.

We are a trusted construction rental company providing high-quality equipment and machinery for residential, commercial, and industrial projects. Our commitment is to deliver reliable solutions, competitive pricing, and exceptional service to help clients complete their projects safely, efficiently, and on time.

What Sets Us Apart

Transparency

No hidden costs. Clear rental terms and honest pricing on all used equipment.

Reliability

Every machine is well-maintained and ready to work the moment it arrives on site.

Flexibility

Rental plans built around your project timeline, short term or long term.

Competitive Pricing

Quality equipment at prices that make sense for your budget.

ISO Certified Standards

Committed to maintaining professional operational standards, quality management, and reliable service delivery.

What We Offer

Equipment Rental

Flexible rental plans for short-term, long-term, and project-based requirements. All equipment is regularly maintained, inspected, and ready for immediate deployment across construction and industrial sites.

Used Equipment Sales

Verified and quality-checked used machinery available at competitive market prices. Every machine is inspected to ensure reliable performance and transparent condition reporting before sale.

Our Rental Fleet

A reliable range of heavy machinery available for rent, suited for construction sites, infrastructure projects, and industrial operations across the UAE.

Articulated Dump Trucks

Built for rough terrain and high-capacity hauling. Ideal for earthmoving and large-scale construction projects.

Crawler Cranes

High-capacity lifting with excellent stability. Suitable for heavy lift operations across construction and infrastructure projects.

Dozers

Powerful and precise. Used for land clearing, grading, and pushing large volumes of material on site.

Rough Terrain Cranes

Designed for off-road and uneven surfaces. Versatile lifting solutions for sites where access is challenging.

Chain Excavators

Heavy-duty excavation for demanding ground conditions. Built to dig deep and perform consistently.

Tipper Trucks

Efficient material transport on and off site. Available in various capacities to match your project requirements.

Forklifts

Reliable material handling for warehouses, industrial sites, and construction yards. Safe, efficient, and easy to operate.

Our Rental Fleet

Every piece of used equipment we sell is inspected and verified, so you can buy with confidence. We offer transparent condition reports and competitive pricing on all available units.

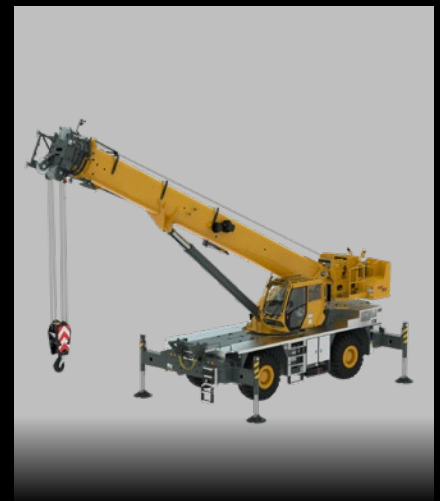

Articulated Dump Trucks

High-performance trucks built for demanding terrain. Well-maintained and ready to get to work.

Rough Terrain Cranes

Versatile and capable lifting solutions for sites that demand mobility and reach. Verified condition, competitive price.

What Our Clients Can Count On

Well-Maintained Fleet

Every rental machine goes through regular maintenance and pre-delivery inspection. You get equipment that is ready to perform from day one.

Flexible Rental Terms

We work around your project, not the other way around. Short-term, long-term, or project-based rentals available.

Verified Used Equipment

No surprises. Every used machine is checked, documented, and fairly priced before it goes to market.

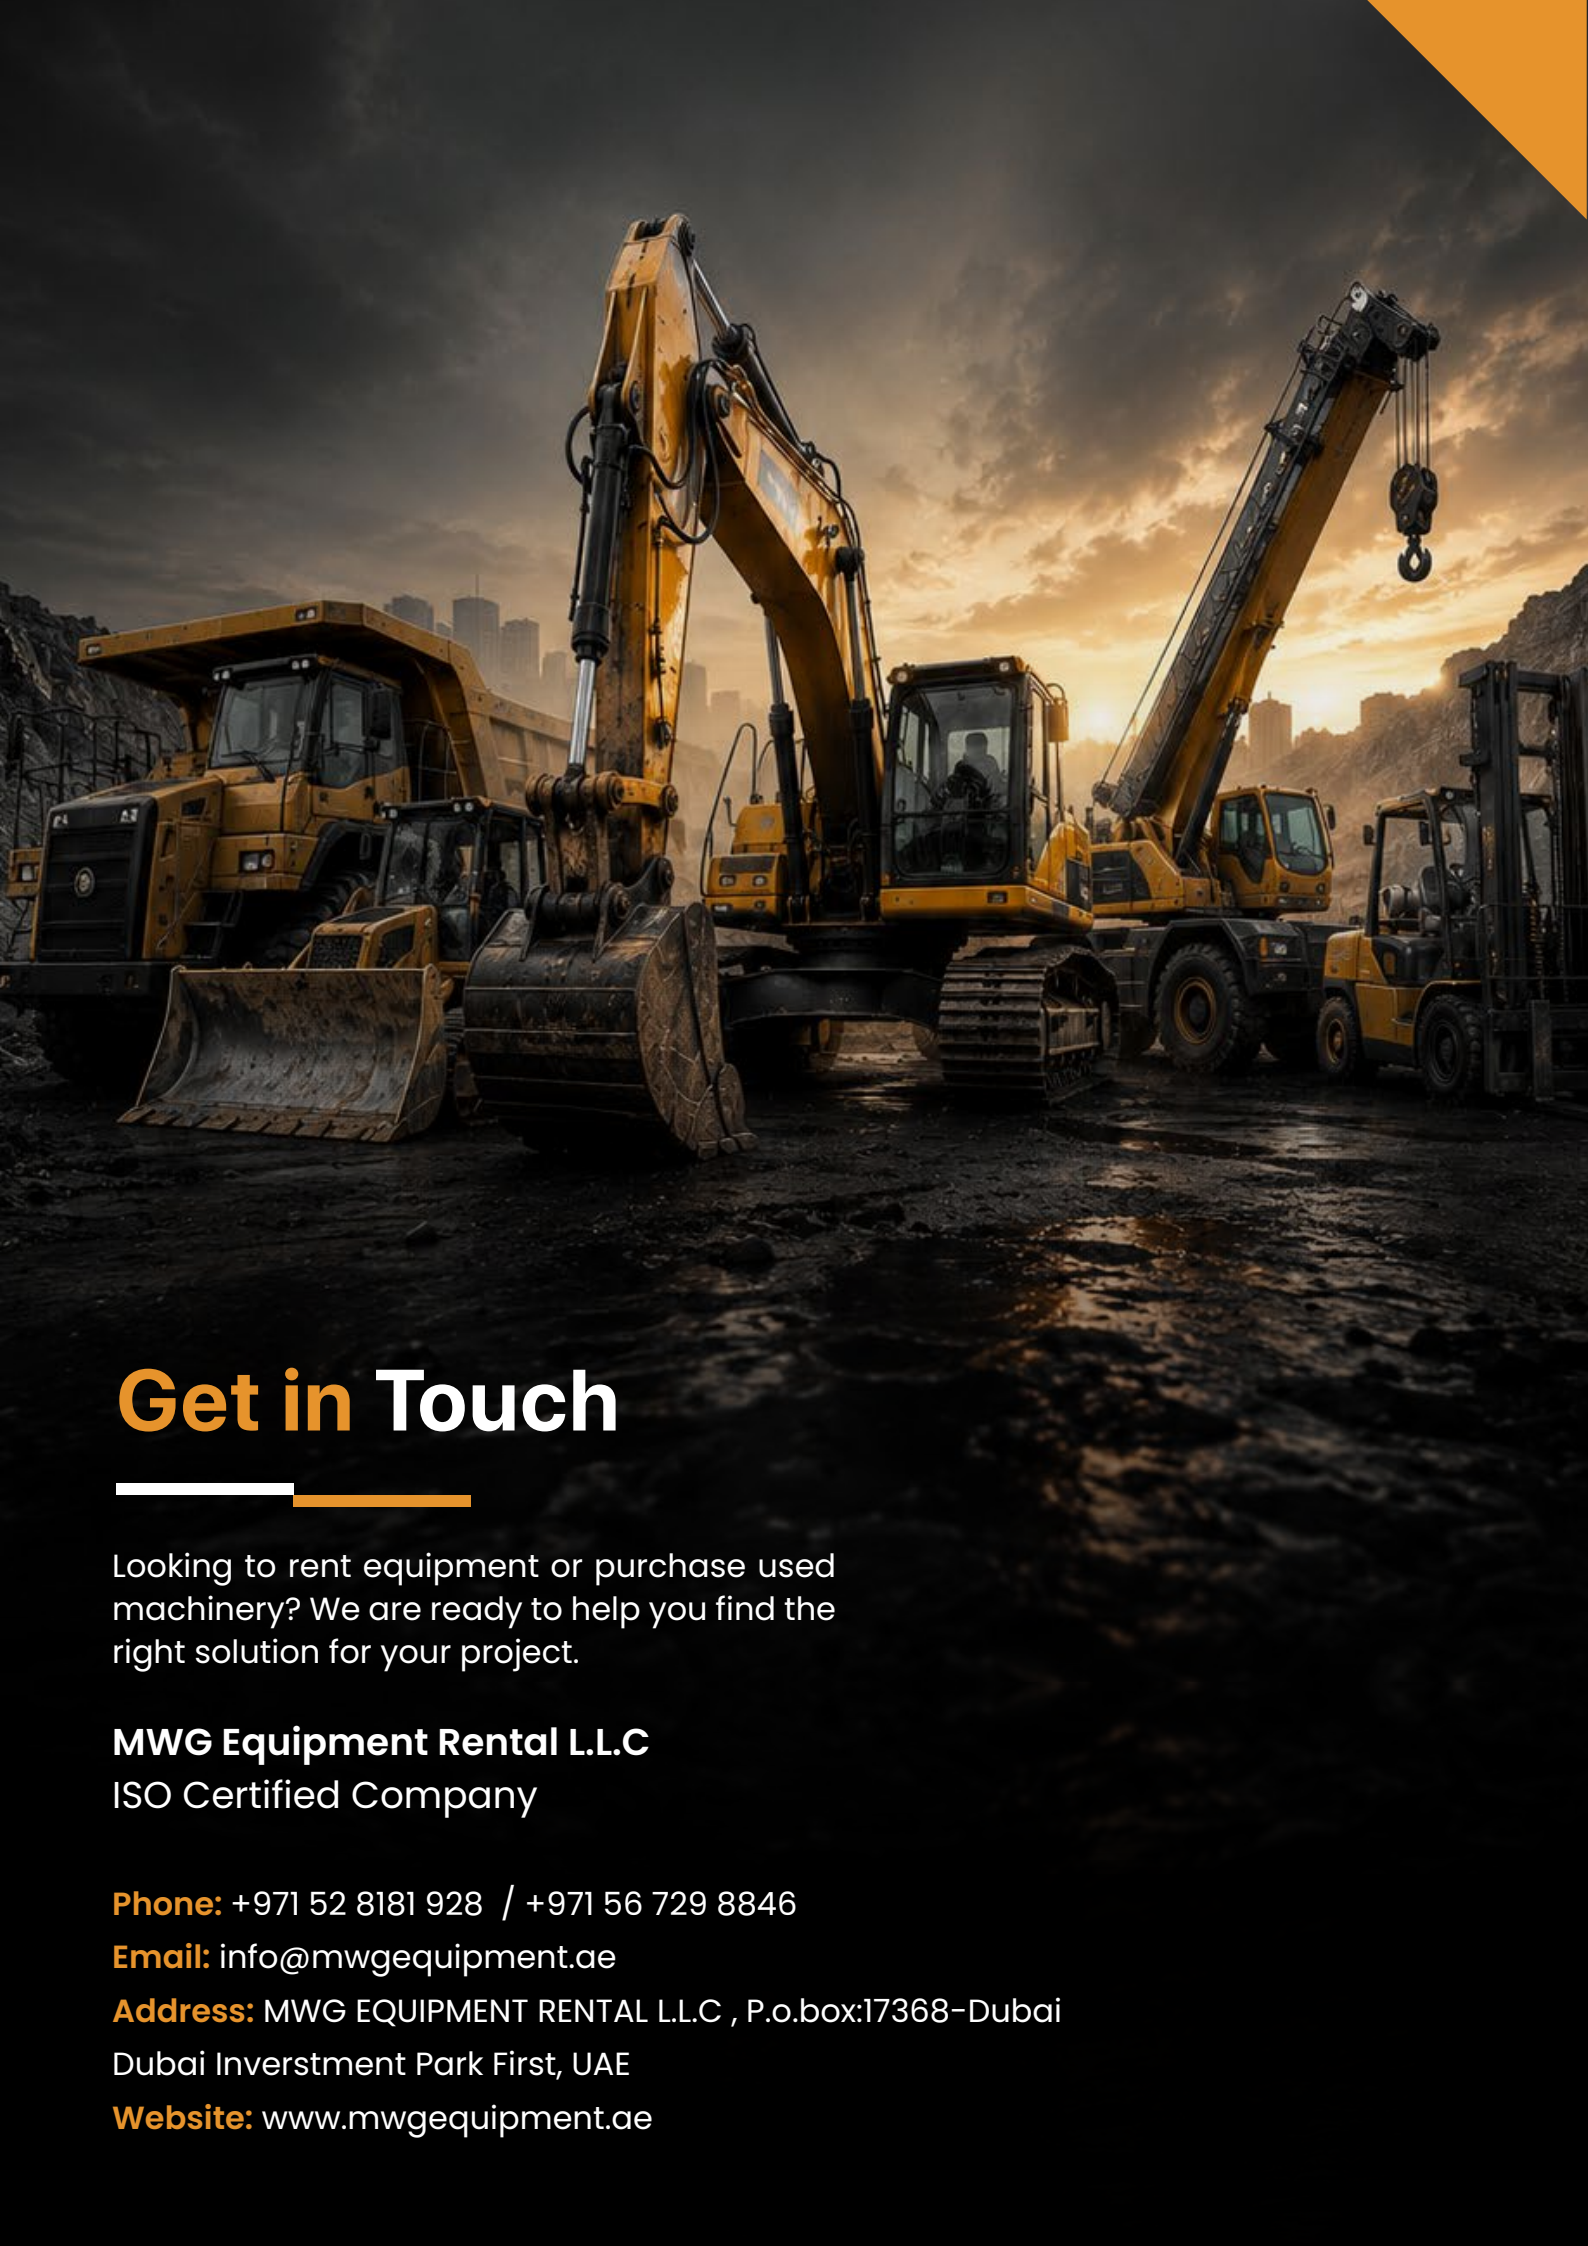

Competitive Rates

We keep our pricing honest and straightforward, so you can plan your project costs with confidence.

Responsive Support

Our team is available to help you find the right equipment, answer questions, and ensure smooth delivery and handover.

Get in Touch

Looking to rent equipment or purchase used machinery? We are ready to help you find the right solution for your project.
